\*Recommendations should be initiated by the district governor. The district governor should verify that the president's criteria have been met prior to passing them on to the Lion leader responsible for endorsing the recommendations. The recommendations then need to be endorsed, and then submitted by the most current past international president from the multiple district, if there is one. If not, then the current board member should endorse and then submit the recommendations. If there isn't one, then the most current past international director should endorse and then submit the recommendations. A Lion is not eligible for recognition if a Presidential or Leadership Award was received during the last three Lion years (2019-2020), (2020-2021), or (2021-2022).

If you are from a single district that meets none of the above requirements, then the district governor may endorse and then submit the recommendations.

If you are from a multiple district that meets none of the above requirements, the council chairperson should facilitate the submission of recommendations.
