

Diabetes Treatment and Prevention

Diabetes prevention and control programs are funded through LCIF, which can include funding for equipment, education and awareness programs for underserved populations.

Opening Eyes

Opening Eyes is a partnership program with Special Olympics to provide vision screenings at select Special Olympics games. Since 2001, more than 370,050 athletes have been screened, and more than 161,000 provided with prescription eyeglasses.

"We suffered a lot from stomachache, and the children had worms in their bellies. Some children were dying from stomachaches. But that doesn't happen anymore," said Niajale Diarra. Her village in Mali benefited from clean water after LCIF provided grant funding for a well.

"To support the efforts of Lions clubs and partners in serving communities locally and globally, giving hope and impacting lives through humanitarian service projects and grants."

LIONS CLUBS INTERNATIONAL FOUNDATION

AT A GLANCE

We Give Sight.

We Support Youth.

We Provide Disaster Relief.

We Combat Disability.

We Serve.

FOUNDATION OVERVIEW

One of the most important ways that Lions make a difference in their communities and the world is through Lions Clubs International Foundation (LCIF), the official charitable organization of Lions Clubs International. With funding from LCIF, Lions carry out large-scale humanitarian projects in their communities.

Lions' support of the Foundation is critical, as donations from Lions provide the majority of LCIF's revenue. LCIF continues to ensure that all donated funds are used as efficiently as possible. All donations are used to fund grants and program expenses. Based on targeted investment returns, LCIF anticipates investment income to be sufficient to cover projected administrative and development expenses.

Since LCIF began in 1968, it has awarded more than 13,216 grants totaling more than US\$1 billion. Together, Lions and LCIF are making a difference for millions of people. "We Serve" better together.

SIGHT

Lions are known worldwide for blindness prevention. Since the SightFirst Program began in 1990, 7.9 million people have had their sight restored through cataract surgeries, 30 million people have had vision loss prevented and hundreds of millions of people have received improved eye care services. Lions and LCIF are establishing and expanding sustainable eye health care systems in underserved areas.

Through two fundraising campaigns, Lions have raised more than US\$415 million to continue and expand SightFirst Programs. Thanks to SightFirst and Lions, the battle against preventable blindness remains a priority in communities worldwide.

"I feel complete now. I cannot thank the Lions enough for restoring my sight. For the first time in a year, I am able to work. It's like being born again," said Nicolas Diaz, a former taxi driver in Mexico. He attended a Lions' SightFirst vision screening and received free cataract surgery.

Childhood Blindness

Since 2001, LCIF and the World Health Organization have been collaborating to address childhood blindness throughout the world. Forty-five need-based Lions eye care centers have been established in countries all over the globe, delivering preventative, therapeutic and rehabilitative eye care services for 140 million children.

SightFirst China Action

Through SightFirst China Action, 5 million cataract surgeries have been carried out in China, home to 17 percent of the world's blind. Additionally, medical staff has been trained and clinics upgraded to increase accessibility to eye care.

Sight for Kids

LCIF and Johnson & Johnson Vision Care Companies (JJVCC) collaborated to develop Sight for Kids, a program that has provided vision screenings, follow up treatment and eye health education to more than 24 million children in Asia.

River Blindness

SightFirst has supported more than 232.8 million treatments for river blindness in Africa and Latin America, in partnership with The Carter Center and other NGOs.

Trachoma

To date, over 729,556 people received surgeries for trachoma trichiasis as a direct result of SightFirst grants.

YOUTH

Supporting the development of youth is a major initiative of LCIF. Lions are bettering the future of children all over the world through improved education and health.

Lions Quest

Lions Quest is a school-based life-skills program for children from kindergarten to 12th grade. More than 15 million children have taken part in a Lions Quest classroom and more than 600,000 educators have been trained to implement the program. Lions Quest teaches responsible decision-making, effective communication and drug prevention.

HUMANITARIAN EFFORTS

Many of LCIF's successful humanitarian programs range from combating disability to disaster relief efforts. Lions continue to develop projects that address the immediate and long-term needs of their local and global community.

Disaster Relief

LCIF emergency grants enable Lions to meet immediate needs such as food, water, clothing, and medical supplies. LCIF awards approximately US\$2 million for disaster relief each year. Lions often offer additional assistance through volunteering or donating supplies. When disasters occur on a larger scale, major catastrophe grants are awarded for long-term reconstruction projects. LCIF has provided funding for recent catastrophes including Typhoon Haiyan in the Philippines and flooding in the Balkans.

Measles Initiative

LCIF is working with the Measles Initiative, a worldwide effort to protect children from measles & strengthen routine immunization services. To date, more than 88 million children have been immunized.
