

## Young Lions membership guide

Use this guide to start your journey as a Lion by finding the club and membership type that best appeals to your needs and service interests.

### CLUB TYPES

There are a variety of club types that Young Lions can choose to join — or even charter — including the following:

**LEO-LION CLUBS** provide the opportunity for all former Leos and other Young Lions to unite in service. Many Leo-Lion clubs thrive as multi-generational clubs, bringing young and young-at-heart Lions together.

Campus Lions clubs offer a great option for Leos to continue their service as Leo-Lion members!

**SPECIALTY CLUBS** offer people who share common interests, professions, culture, hobbies or life experiences the opportunity to participate in unique and rewarding service projects that directly benefit their communities and build leadership skills. #### Did you know?

Many students serve in specialized Campus Lions clubs to meet the unique needs of their local and global communities — like students enrolled in medical schools providing healthcare service.

**CLUB BRANCHES** provide an opportunity for Young Lions to serve while still having the support of an existing parent club. In the process, parent clubs diversify their membership by offering groups of five or more people to meet separately and provide service that is meaningful to them.

Club branches can thrive with small or large numbers of members! There is no rule that a club branch must charter once its membership reaches 20 members. Visit [lionsclubs.org/club-branch](https://lionsclubs.org/club-branch) to learn more.
